Change menu item selected, hover, active CSS	1
Menu icon size up	2
Change Menu item height	3
Change the spacing between the following menu items	4
Change textbox hint content color	5

1. Change menu item selected, hover, active CSS

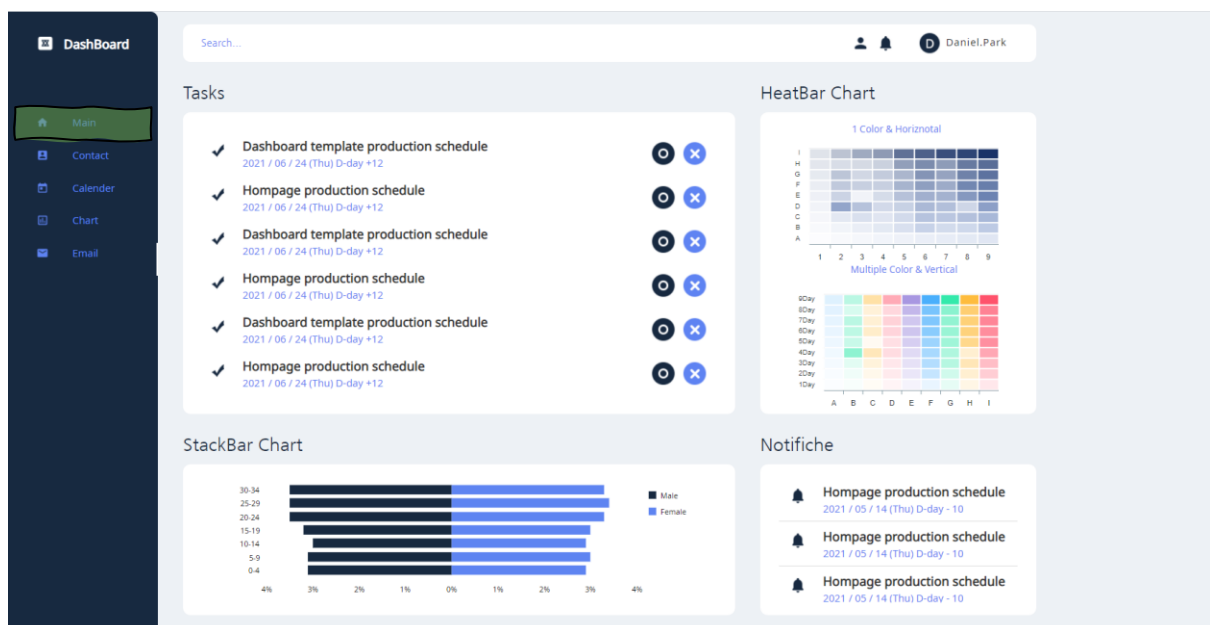

- Change the menu so that it has a bottom border when it is selected, hovered, or active.

1) **Solution – HTML CSS – Dashboard_DeshbardLayoutForm** Click.

2) Change **border-right** CSS of line 1 to "border-bottom: 5px solid #fff";.

3) Delete the **background** CSS.

4) Add the **border-radius** CSS. "border-radius: 10px"

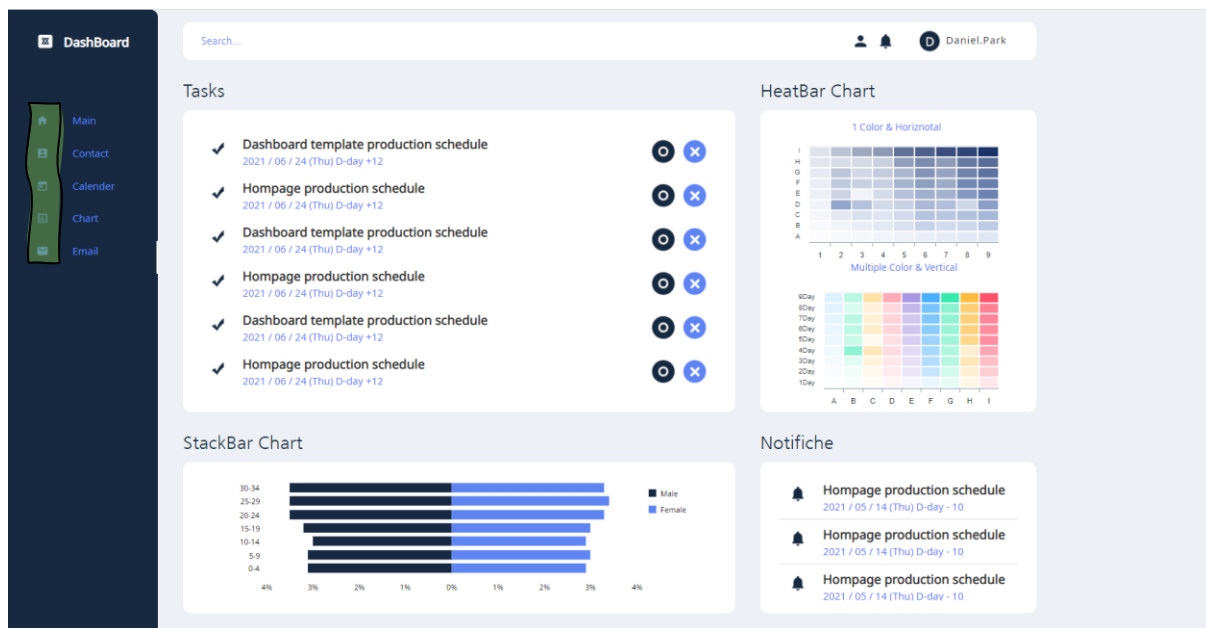

```
1  /* menu item selected, hover, active css */
2  .agados-dashboard-menu .dx-menu-item-selected,
3  .agados-dashboard-menu .dx-menu-item.dx-state-hover,
4  .agados-dashboard-menu .dx-menu-item.dx-state-active{
5      border-right: 3px solid #fff;
6      background-color: #f5f5f5;
7  }
```

2. Menu icon size up

- Try increasing the size of the menu icons.

1) **Solution – HTML CSS – Dashboard_DeshbardLayoutForm** Click.

2) Change **width, height** CSS of line 1 to "42px";

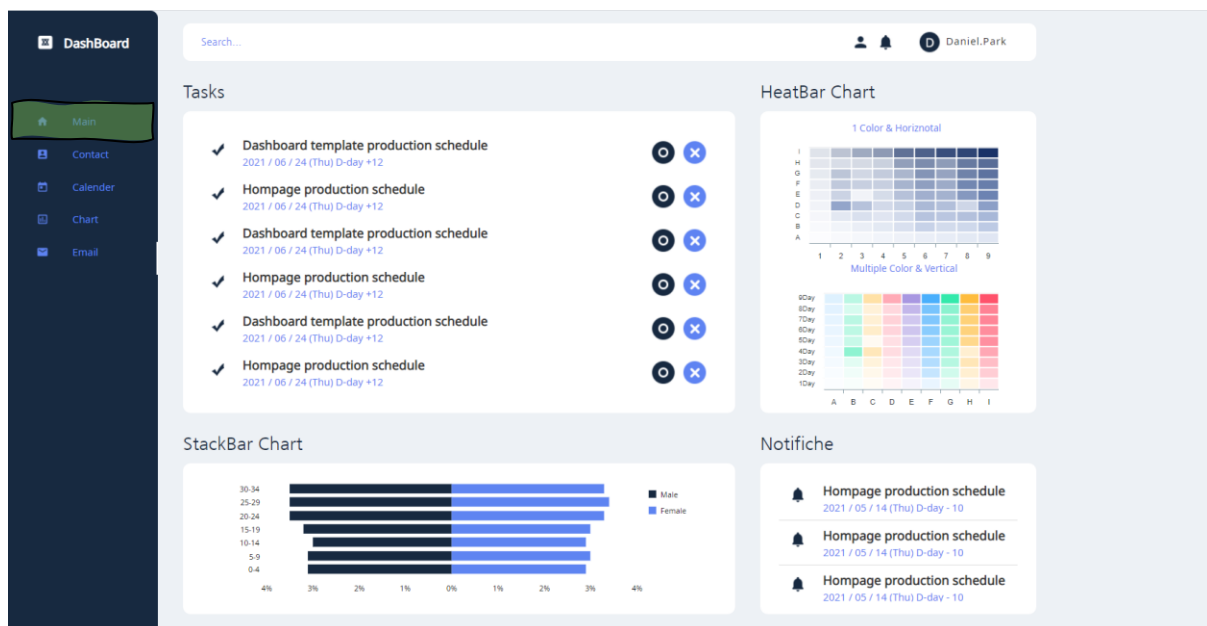

```
19  /* menu icon size */
20  .agados-dashboard-menu .dx-icon {
21      width: 32px !important;
22      height: 32px !important;
23      background-size: 40px 40px !important;
24  }
```

3. Change Menu item height

- Try resizing the menu items height.

1) Open DashboardLayoutForm.

2) Change `padding-left`, `padding-right` CSS. If you want vertical alignment, you have to define the same value.

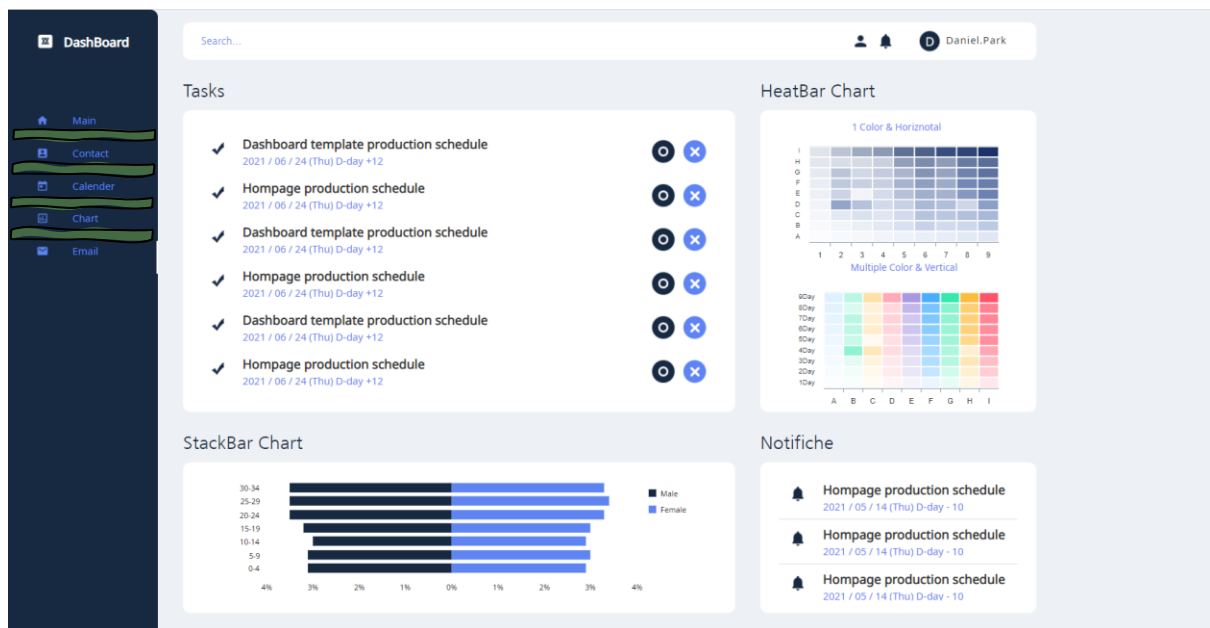

4. Change the spacing between the following menu items

- Try reducing the spacing between menu items.

1) Open DashboardLayoutForm.

2) Change **margin-bottom** CSS to "5px".

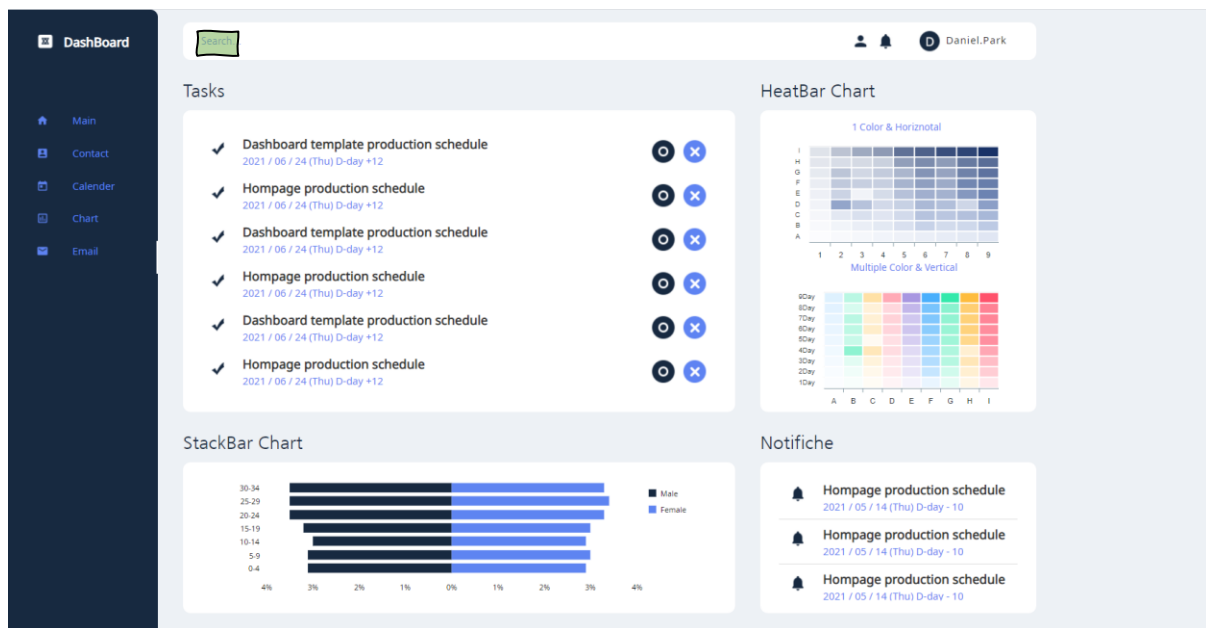

5. Change textbox hint content color

- Change textbox hint content color to `rgb(23, 41, 64)`.

1) **Solution – HTML CSS – Dashboard_DasgboardWForm** Click.

2) Change **color** CSS of line 1 to `"rgb(23, 41, 64)"`.

```
1  /* TextBox placeholder color */
2  .agados-dashboard-text .dx-placeholder{
3    color: rgba(94,131,242,1);
4  }
```
