AssetManager Guideline

2021.05.17

Contents

1. **Change tile item hover CSS**

- Change the tile item so that the data appears without hovering over it.

1) Open MainWForm.

2) Click the contentTemplate property.

3) Select "WebPanel" Control.

4) Change display CSS to "block".

Style		
▸ background		
▸ border		
box-shadow		
box-sizing		
className	agados-asset-panel2	
display	none	

※ Previously, the display was controlled through user CSS. ("none" -> "block")

```
35   /* tile hover panel css  */
36   .agados-asset-tile-view .dx-tile.dx-state-hover
37   .agados-asset-panel2
38   {
39       display:block !important
40   }
```

2. **Change button hover CSS**

- Try changing the color of the hover button to change to rgb(255 162 0).

1) **Solution** – **HTML CSS** – **Asset_AssetWForm** Click.

2) Change background-color CSS of line 52, 58, 64 to "rgb(255 162 0)";

```
52    /* delete btn hover css. */
53    .agados-asset-btn2:hover{
54        color: white !important;
55        background-color:rgb(255,59,48) !important;
56    }
57
58    /* request btn hover css. */
59    .agados-asset-btn3:hover{
60        color: white !important;
61        background-color: rgb(5,149,219) !important;
62    }
63
64    /* cancel btn hover css. */
65    .agados-asset-btn4:hover{
66        color: white !important;
67        background-color: rgb(157,157,157) !important;
68    }
```

3. Switch handle color change

- Try changing the color of the switch to rgb(255 162 0).

1) **Solution** – **HTML CSS** – **Asset_AssetWForm** Click.

2) Change background-color CSS of line 107 to "rgb(255 162 0)";

```
107   /* Available switch handle color */
108   .agados-asset-switch .dx-switch-on-value .dx-switch-handle:before,
109   .agados-asset-switch .dx-switch-handle:before,
110   .agados-asset-switch .dx-switch.dx-state-hover .dx-switch-handle:before{
111       border-radius : 75%;
112       background-color : #0d5144 !important;
113   }
```
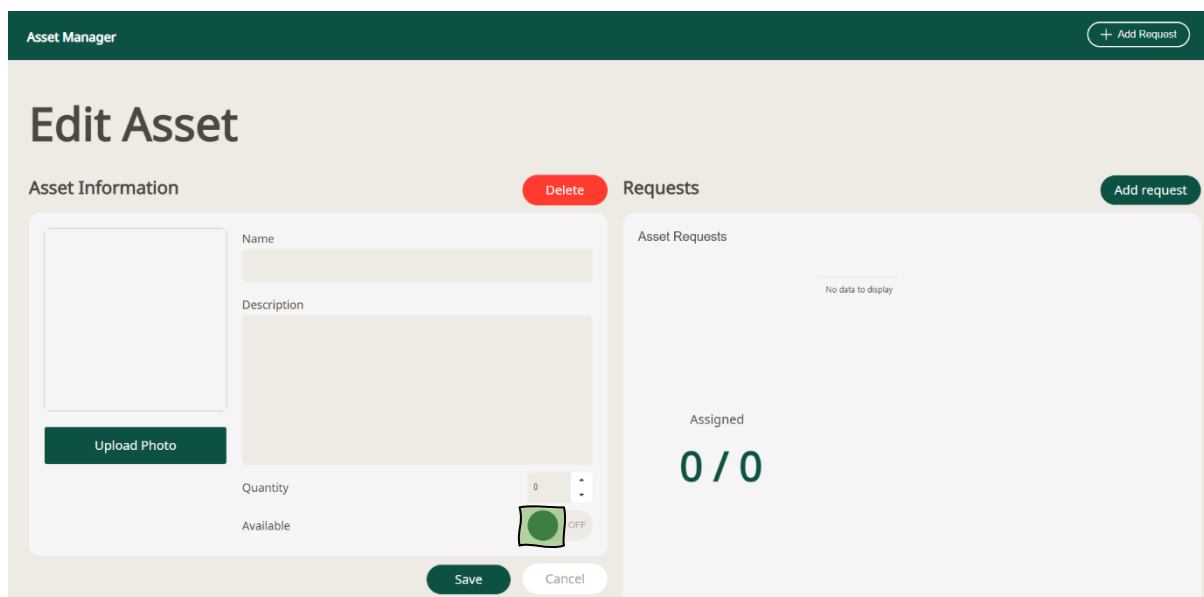

4. Switch handle size change

- Try changing the size of the switch to 40px.

1) **Solution** – **HTML CSS** – **Asset_AssetWForm** Click.

2) Change width, height CSS of line 97 to "40px".

3) You need to change the size of the container to the same. Change height CSS of line 76 to "40px".

```
97    /* Available switch handle */
98    .agados-asset-switch .dx-switch-handle {
99      position: relative;
100     float: left;
101     width: 48px;
102     height: 48px;
103     margin-top: 0px;
104     margin-left: -48px;
105   }
```

```
76    /* Available switch container. */
77    .agados-asset-switch .dx-switch-container {
78      overflow: hidden;
79      margin: 0px !important;
80      padding: 0px !important;
81      height: 48px;
82      background-color : #eeebe4 !important;
83      border: 0px !important;
84      border-radius: 32px !important;
85   }
```
